=> show static blogs

The screenshot shows a development environment with two main panes. On the left is the Explorer pane, displaying the project structure for '1132-2N-DEMO-23'. It includes a 'public' folder containing 'demo/blog_23' and several image files ('photo-1.jpg' through 'photo-9.jpg'). On the right is the code editor with two tabs: 'page.js .../p1 U' and 'page.js .../p2 4, U'. The code is a Next.js component for 'P2_23'. A yellow box highlights the image tag in the code:

```
w06 > app > app > quiz1 > p2 > JS page.js > P2_23.js

```

The right side shows a browser preview titled 'The Wild Oasis' with the URL 'localhost:3000/quiz1/p2'. A yellow box highlights the title and URL. Below the browser is a static blog preview with cards for 'LIFESTYLE', 'TRAVEL', and 'LIFESTYLE' categories, each with a thumbnail image and a brief description.

=> show blog_xx.sql with img pointing to /demo/blog_xx directory

This screenshot shows a similar development environment to the previous one. The Explorer pane on the left displays the project structure for '1132-2N-DEMO-23', including a 'sql' folder with '1.sql' and 'cabins.sql'. The code editor on the right shows '1.sql' with a yellow box highlighting the image URLs:
